**There's a breeze blowing in this place
A heavenly wind flows as we seek His face
Come lets enter in, come lets enter in**

**Enter in, enter in, into His Presence
Enter in, enter in into His Love (*repeat*)**

**He's here right now just to touch you
Feel His caring arms all about you
As the warmth of His Spirit surrounds us
His love is reaching out**

**So Enter in, enter in into His presence
Enter in, enter in into His love**

**Enter In, enter in into the throne room
I bow before You
Laying before You in worship to You
Oh I love to worship You
Your fragrance I can smell
Your peace I can feel as I come
As I come before You
Kneel down before You
I lift my voice up to You
And I enter in into His presence**
